Getting the Best from OneTrust

As an Original OneTrust Partner, Red Clover Advisors provides managed services to help companies implement, optimize, and maintain OneTrust technology. Our certified practitioners speak both 'privacy law' and 'tech' to build sustainable privacy programs for companies that mitigate risk, exceed compliance requirements, and seamlessly integrate into business operations, earning customer trust. From setup to ongoing support, we ensure companies harness the full potential of OneTrust.

Red Clover Services for OneTrust

PRIVACY MANAGEMENT

OneTrust Services		Red Clover Support Program
PIA & DPIA Automation	>>>	Create, build, and facilitate Data Protection Impact Assessments (DPIAs) & Privacy Impact Assessments (PIAs) and associated processes, policies, and training.
Data Mapping Automation	>>>	Out-of-the-box or custom implementations with a structured data mapping process and ongoing maintenance policy and support.
DSR Automation	>>>	Set-up the technology and the processes, policies, and training programs to handle individual rights, including webforms, workflows, and geolocation requirements.
Third-Party Risk Management	>>>	Analyze and update the vendor management process and policies for new and existing vendors, including vendor assessments.
Privacy Notice Management	>>>	Create privacy notices and policies that fully comply with applicable regulations and support company strategy for customer trust.
Privacy Training	>>>	Create custom virtual or in-person privacy training programs to ensure employees are informed about relevant privacy laws and company policies.

CONSENT & PREFERENCES

OneTrust Services		Red Clover Support Program
Consent & Preferences	>>>	Develop and configure comprehensive consent and preference strategies, including full CMP setup by geolocation and UCPM.
Mobile App Consent	>>>	Execute and maintain consent programs specific to mobile applications.

OneTrust Services		Red Clover Support Program
Data & AI Governance	>>>	Develop and execute an AI governance strategy, including policies & assessments.

"Considering the level of complexity we're working with, Red Clover helped us implement our privacy program with OneTrust in a way that didn't make it feel burdensome."

Paul Likins, VP of Revenue Operations, a360media

Why Red Clover

- **OneTrust Certified & Experienced**
  Red Clover is an Original OneTrust partner, and our team has deep product knowledge working with enterprises on OneTrust implementations and ongoing maintenance.

- **True Partnership, Not Just Implementation**
  We build future-proof privacy programs that scale with companies. And we stick around to make sure they do.

- **Deep Privacy Expertise + Technical Mastery**
  We're the privacy program architects for startups to Fortune 500 organizations. Our team has decades of experience building and running programs from the ground up at some of the world's largest companies, including Sony, Netflix, Cox, Bank of America, and Vail Resorts.

- **White-Glove Simplicity**
  Privacy is complex. Working with us isn't. Your dedicated team of experts turns OneTrust's power into real results.

Our Process

Scoping	Analysis	Implementation	Sustainable Compliance
Identify which privacy laws affect companies and how they apply to specific business operations.	Assess company needs through workshops to determine the right OneTrust features for businesses.	Set up OneTrust and create clear, usable processes based on our findings.	Maintain company programs with regular updates to stay ahead of changing business practices and new laws.

"When you put the technology plus the people piece together, you get something greater than if you had just done it on your own."

Jodi Daniels
Founder & CEO, Red Clover Advisors
